Internship Program Admissions

Briefly describe in narrative form important information to assist potential applicants in assessing their likely fit with your program. This description must be consistent with the program's policies on intern selection and practicum and academic preparation requirements:

Regional Health Systems provides affordable, quality mental health care, primary health care, addictions treatment and case management services to adults and children. We support our client's emotional, physical and intellectual well-being through whole-person care. We are located within 45 minutes southeast of downtown Chicago in Northwest Indiana. The longstanding internship program (previously known as Southlake CMHC) was created to be a generalist program whose goal is to provide clinical training in outpatient therapy and assessment. In addition to the outpatient therapy and assessment, rotation experiences are available in a variety of departments and levels of care with mental health and substance abuse treatment. Applicants from diverse backgrounds and those who can speak Spanish and who specialize in culturally sensitive treatment with a variety of individuals from Latinx populations are especially encouraged to apply. Successful applicants should be interested in working with diverse and underserved community populations. We have opportunities for a wide variety of psychological testing batteries; all interns are provided with testing cases and additional training on specialized instruments. Regional is an Equal Opportunity, Affirmative Action Employer of all protected classes. Women, racial and ethnic minorities, individuals with disabilities, and veterans are encouraged to apply.

Does the program require that applicants have received a minimum number of hours of the following at time of application? If Yes, indicate how many:

Total Direct Contact Intervention Hours	X Yes	No	Amount: 500
Total Direct Contact Assessment Hours	X Yes	No	Amount: 100

Describe any other required minimum criteria used to screen applicants:

The internship program at Regional will consider applicants who do not meet required direct contact hours and will review the application based on goodness of fit with the internship and taking into consideration difficulties that may have resulted due to COVID 19 epidemic.

Applicants are required to submit an example of a deidentified integrated test battery report in addition to the APPI.

Applicants must have their Master's Degree in a psychology related field and their clinical research/dissertation proposal completed prior to beginning their internship.

Interns are required to have an interest in working with underserved populations.

Financial and Other Benefit Support for Upcoming Training Year*

Annual Stipend/Salary for Full-time Interns	31,200	
Annual Stipend/Salary for Half-time Interns	N/A	
Program provides access to medical insurance for intern?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
If access to medical insurance is provided:
